PROFILE

With a wealth of experience exceeding three years in web development, I'm a versatile Full Stack Developer deeply passionate about crafting immersive, user-centric web experiences. My skill set extends across both frontend and backend domains, allowing me to engineer comprehensive digital solutions. Thriving in collaborative team environments, I consistently rise to the challenge of complex problems, while my commitment to staying at the forefront of industry trends ensures the solutions I create are both effective and forward-looking, pushing the boundaries of digital innovation.

EXPERIENCES

Software Developer

IAS Software

📅 Oct 2022 – Present   ⚲ Bogotá D.C, Colombia

Key Experiences:

- Implemented end-to-end functionality by coding and integrating backend and frontend components.
- Conducted rigorous testing, debugging, and performance optimization to ensure high-quality and efficient software delivery.
- Leveraged Node.js, Rekognition, S3, EC2, Serverless, React.js, React Native, and GraphQL technologies to develop robust software solutions.
- Containerized applications using Docker, ensuring consistent and reliable deployment across various environments.
- Built responsive and user-friendly user interfaces using React.js and React Native, ensuring optimal user experience across different platforms.
- Developed micro-frontends using Single-spa, enabling modular and independent development of frontend applications with a focus on scalability and maintainability.
- Presented the project at the "100 Open Startups" event, showcasing the innovative features and functionalities of the application to a wide audience.

Frontend developer

ITA

📅 Jul 2022 – Oct 2022   ⚲ Bogotá D.C, Colombia

Key Experiences:

- Worked closely with UI/UX designers to transform design mockups and wireframes into interactive and visually appealing user interfaces.
- Implemented Redux as a state management solution, effectively managing and synchronizing application state across components.
- Developed mobile applications using React Native and TypeScript, delivering high-quality and native-like user experiences on both iOS and Android platforms.
- Implemented responsive and mobile-friendly designs, utilizing CSS frameworks and responsive design principles.
